

JU-C1500 Conveyor type

| | |
|---|--|
|  | <p>Equipped with an electronic ballast and capable of linear dimming, it excels in the fine-tuned irradiation required for the manufacture of high-performance products and is a highly versatile device that can be used in a wide range of applications, from development using UV curing technology to incorporation into production processes.</p> |
|---|--|

| | |
|----------------|---|
| type name | JU-C1500 |
| power supply | Electronic ballast 1.5kW 50/60Hz |
| Lamp Input | 80-120W/cm Stepless dimming |
| Dimensions | W800×D420×H616 |
| mass | Approx. 60kg |
| lamp | <p>Luminescence length 125mm metal-halide lamp high pressure mercury lamp Other selective wavelength lamps 5 types</p> |
| Main Functions | <p>stepless dimming Variable transfer speed Irradiation Distance Adjustment integration time meter</p> |

| | |
