

LED Ring Illuminator for Stereomicroscope MOLE92 Series

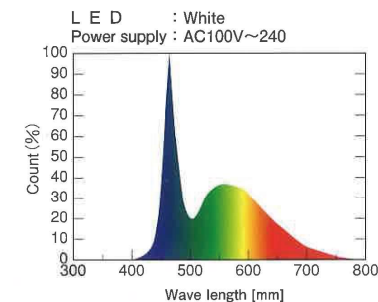

White LED Ring Illuminator is designed to fit most stereomicroscopes. LEDs offer a longer operation life and flicker-free illumination. It withstands frequent switching on/off.

Features

- White LED 30 pcs.
- Fits various types of stereomicroscope models.
For precise positioning, adapter or clamp is provided.
- Easy operation with switch mounted on LED Light head.
 - ① On - Off operation
 - ② Light control (100 ~ 0 %)
- Input power : supplied with an AC adapter (AC100 ~240V)
- Low power consumption (2.5W)
- Natural color temperature reduces glare.
- Low cost
- RoHS compliant
- MADE IN JAPAN

Spectral energy distribution

Mounting system

● Clamp

● Ring adapter

Specification

●Light head

Model	MOLE92
Input voltage	DC12V
Consumption wattage	2.5W
Output current	140mA MAX

●AC adapter

Input voltage	AC100V~240V
Output	DC12V 1A MAX
Certification	CE, UL, PSE

●Dimension
