●Usage check box

□Adhesion □Coating □Ink hardening □Peeling □Exposure
□Fluorescence excitation □Flaw detection □Photocatalyst

□physical property change □Other（   ）

●Check box for UV light source in use

　□Not used

　□UV-LED（Manufacturer Name: Model   ）

　□Lamp （Manufacturer Name: Model   ）

■Wavelength

_____ nm

■Irradiation range

_____×_____ mm or Φ_____ mm

■Required irradiance

_____ mW/cm²

■Required Total Light Quantity

_____ mJ/cm²

■Irradiation distance (distance from the bottom of the irradiator to the object)

_____ mm

■UV irradiation time

_____ sec

■Line speed (when flowing in a line)

_____ mm/sec

■Manufacturer and model of irradiance meter in use

_____
